OBJECTIVE:

To create entertaining and inspiring animation. I look forward to exploring a wide range of ideas on many projects while continuing to learn and share with others.

SKILLS:

A strong knowledge of animation principles, acting, motion and appeal to create expressive and entertaining animation. I also understand the importance of good reference and believability to create high-quality animation.

The ability to animate in a structured and flexible way to allow for clear progress in a timely manner, while remaining easily adaptable to suit a wide range of styles.

A good understanding of animation tools such as Dopesheets and F-curves, plus the ability to solve technical problems.
